EDUCATION

Bachelor of Technology (Computer Science)

2023 – 2027 | Ghaziabad, UP

KIET Group of Institutions, Ghaziabad

- CGPA - 8.5 (Till 4th Semester)

Senior Secondary(Class 12th)

2022 – 2023 | Aligarh, UP

Vidyavati Inter college , Aligarh

- Percentage: 92.8%

INTERNSHIPS

Full-Stack Development Intern — Codveda Technology

21 Nov – 21 Dec

- Built production-ready backend features using Node.js, Express, and MongoDB with secure JWT-based authentication.
- Implemented role-based access control, protected APIs, and real-time features using WebSockets.
- Designed optimized APIs with GraphQL and collaborated across frontend and backend in an agile team.
- Debugged production issues and improved API reliability and secure data handling.

SKILLS

- **Programming Languages:** C, C++, Python, Java, HTML, CSS, JavaScript
- **Frameworks & Libraries:** React, Node.js , Express.js, Tailwind CSS
- **Databases:** MongoDB , MySQL
- **Core:** Data Structure & Algorithms, OOPs, DBMS
- **Tools & Platforms:** Git, GitHub, Postman, VS Code, Eclipse IDE
- **Soft Skills:** Problem solving, Leadership ,Communication

PROJECTS

Ossean — Open Source Project Explorer [↗](#)

Nov 2025

Tech Stack: React.js, MongoDB, JWT Auth, Github API, Tailwind CSS

- Designed and developed a backend-driven platform for discovering trending and high-quality open-source repositories used by developers.
- Integrated third-party GitHub APIs, handling authentication, rate limits, and optimized data fetching.
- Implemented filtering and aggregation logic on the backend to support language, popularity, and activity-based queries.
- Focused on performance, scalability, and clean API design to support future feature expansion.

EasyMed - Appointment Booking & Management Platform [↗](#)

sep 2025

Tech Stack: React.js, MongoDB, JWT Authentication, Cloudinary, Multer, Tailwind CSS, Express.js

- Built a scalable backend system for appointment booking and role-based access for patients and doctors.
- Implemented secure authentication and authorization using JWT and MongoDB.
- Integrated Cloudinary for secure file uploads and media management.
- Designed REST APIs to support concurrent users and consistent data handling.

ACHIEVEMENTS

- Solved 800+ problems on Data Structures and Algorithms across multiple competitive programming platforms.
- Achieved a Knight rating (1907) and ranked in the top 4% globally on LeetCode.
- Earned a 2 star rating (1488) on CodeChef and a Pupil rating (1223) on Codeforces.
- Secured a Global Rank 199 in LeetCode Weekly Contest 460 and Global Rank 830 in CodeChef Starters 213.

CERTIFICATES

- MongoDB University - Introductions to MongoDB
- LinkedIn Learning - Programming Foundations: Data Structures (2019)
- HackerRank- Intermediate Problem Solving (2025)
- HackerRank - SQL(Intermediate) Certificate
